Address: _____

Herein termed the applicant, requests permission to make a road cut across a county road.

LOCATION

Section: _____ Township _____ Range _____

Exact distance and direction from a permanent landmark: _____

Date: _____ Approved by: _____

PERMIT

The Board of County Commissioners of Carbon County, Montana does hereby issue to _____ a permit to make a road cut across a county road, as located above. Work is to be completed immediately in accordance with plans and specifications furnished by the County Commissioners. Waterlines that are used all year must be buried a minimum of 6 feet. Construction must not interfere with road use. Permittee is responsible for public safety during construction; is liable for construction operations; must bury structure a minimum of 18 inches beneath the road surface (including ditch bottom and right-of-way); road cut fill must have a base of 4 inches (*minimum*) of 3/4 inch compacted, crushed gravel and a sub-base of 6 inches (*minimum*) of 3/4 inch minus compacted, crushed gravel; must return roadway to its former condition and reseed the right-of-way, as recommended by the County Commissioners, if native sod is disturbed by construction; maintain settlement at the site for one year after construction; and keep the structure in repair.
