

REQUEST FOR PROPOSALS

NOTICE IS HEREBY GIVEN that Carbon County, Montana, acting through the Carbon County Sheriff's Office, is requesting proposals for a Public Safety Software System. Proposals will be publicly opened and read at 11:00 am (MT) on March 24, 2020.

The Carbon County Sheriff's Office (CCSO) is seeking to replace its existing Public Safety Software System (PSSS). The CCSO is requesting proposals for an integrated PSSS that consists of one application, with one database, provided by one vendor and which includes the service of providing and maintaining the software and servers. The successful vendor must have the capability to transfer data from the current PSSS to the product chosen.

The CCSO is interested in new technology and is willing to obtain as much information as possible about recommendations for the new system from the respective vendors.

The system shall allow the CCSO to efficiently organize, track and access the vast amount of information that flows through the system daily. It must be searchable, easy to use, and secure.

The system must be scalable and must be able to integrate with existing and future options the CCSO may implement.

No vendor, employee, or consultant shall contact anyone except the individual listed at the CCSO for purposes of soliciting information about this RFP, the evaluation of the proposals, or the selection process until after such time as the CCSO announces its intent to award the contract or otherwise completes the RFP process. All correspondence shall be made by email to the contact listed below.

Digital copies of the Request for Proposals Documents are available at <https://co.carbon.mt.us/rfps/>. Paper copies can be obtained from the Carbon County Sheriff's Office located at 102 N. Broadway Ave, Red Lodge.

All communications regarding this RFP should be directed to:
