

POST ELECTION AUDIT RECONCILIATION FORM AND REPORT TO SECRETARY OF STATE - FEDERAL OFFICE

Submit completed and signed form to the Secretary of State no later than the deadline for submitting the official county canvass.

Table with 2 columns: Field Name, Value. Fields include Election Date (8-Nov-22), County Name (Carbon), Precinct Name/Number (Precinct 3), Contest (US Representative 2nd Cong.).

Table with 2 columns: Field Name, Value. Fields include Type of Tabulator Used in the Precinct (DS 200), Tabulator Serial /ID # (0319361782/0319370866), Ballot Container Seal # (if # is used) (094733).

Total Ballots Counted by Tabulator as Shown on Tape* 549

Total Ballots Counted by Hand* 549

*Note: The County Audit Committee may not see the machine totals before the hand count

Main reconciliation table with 7 columns: Column A (Candidate Names/Ballot Issue #/Type of Voter), Column B (Hand Count Audit Tally), Column C (Machine Tally*), Column E (Difference), Column F (Number of Explainable Differences), Column G (Explainable Difference Reasons), Column H (Unexplained Difference), Column I (Other Comments/Explanation). Rows include candidates like Gary Buchanan, Sam Rankin, Matt Rosendale, Penny Ronning, and summary rows for Overvotes, Undervotes, Write-in Votes, and Total Votes.

†Where possible, please provide information about the Unexplained Difference between the machine count and the hand count on an attached sheet.

Analysis:

Table with 2 columns: Question, Answer. Questions include: 'Is the Unexplained Difference total in Column H at least 5 votes?', 'What is the Percentage (%) Difference Between Hand Counted Ballots and the Unexplained Difference?', 'Is the Unexplained Difference total at least 5 votes and is the Unexplained Difference greater than 0.5%'.

** The random-sample audit may not include a ballot that a vote-counting machine was unable to process and that was not resolved pursuant to 13-15-206 because the ballot: (a) appeared to have at least one overvote; (b) appeared to be blank; (c) was in a condition that prevented its processing by a vote-counting machine; or (d) contained a mark, error, or omission that prevented its processing by a vote-counting machine.

†Note: The purpose of the post-election audit is to determine whether the tabulating equipment has accurately counted votes. Because the purpose of the post election audit is to determine if the machine counted the votes correctly, the audit committee should be instructed to count votes consistent with the way an optical scan machine would count votes.

Signature section with two columns: County Audit Committee Signatures (with three handwritten signatures) and Election Administrator Signature (with one handwritten signature).

- 1. Complete a form for each precinct to be audit
2. Fill in the Election Date, County Name, Precinct Envelope Seal #.
3. Enter the Total Ballots Counted by Tabulator totals before the hand count.
4. Enter the Candidates or Ballot Issue (For and /
